CAREER OBJECTIVE

A passionate B.E. CSE (Artificial Intelligence) student at Chandigarh University × Microsoft, with a strong foundation in Python, C++, and C, and growing expertise in Machine Learning, Deep Learning, NLP, Cybersecurity, and Generative AI. Certified in Microsoft Azure AI Fundamentals (AI-900) and Azure Fundamentals (AZ-900), with hands-on experience in cloud computing and AI tooling. Aspiring AI/ML Engineer passionate about building intelligent, secure, and scalable systems, with a keen interest in LLM engineering, AI infrastructure, and real-world problem solving.

EDUCATION

Tertiary Education: Bachelor of Engineering in Computer Science (Artificial Intelligence) (2025 – 2029)
Chandigarh University × Microsoft Bytexl | Reported CGPA: 8.0

Relevant Coursework: Machine Learning, Deep Learning, Neural Networks, NLP, Computer Vision, Generative AI, DSA, Cybersecurity

Senior Secondary Education: CBSE Board (2024) — Gyan Bharti Public School
Secondary Education: Matriculation, CBSE Board (2022) — Gyan Bharti Public School

PROJECTS

vulnEye – Website Vulnerability Scanner | *Stack: HTML5, CSS3, JavaScript, OWASP Top 10*
- Built a client-side web vulnerability scanner testing against OWASP Top 10 vulnerability categories.
- Categorized findings by severity (Critical to Low) with exportable JSON and CSV reports.
- Designed a responsive, accessible interface with real-time scan progress tracking.

Instruction Set Simulator (ISS) | *Stack: C++17, React, JavaScript, Computer Organization & Architecture*
- Built a full-stack simulator converting arithmetic expressions into Three-, Two-, One-, and Zero-Address CPU instruction formats.
- Implemented a Shunting-Yard based infix-to-postfix engine with real-time syntax validation.
- Developed both a React web frontend and a standalone C++17 CLI backend with instruction-count comparison.

Bank Management System | *Stack: C, File I/O, Structured Programming, DSA*
- Developed a console-based banking application in C implementing core account operations – create, deposit, withdraw, transfer.
- Applied file handling for persistent data storage without an external database.
- Implemented structured error handling and input validation for reliable operation.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, basic JavaScript

Cybersecurity: Web Vulnerability Scanning, SQL Injection, XSS, Network Security, Ethical Hacking Fundamentals, Linux Security

AI / ML: Supervised & Unsupervised Learning, Classification, Regression, Deep Learning, CNNs, RNNs, Transformers, LLMs, Generative AI, Prompt Engineering, RAG, Feature Engineering, Model Evaluation

Data & ML Tools: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook, basic TensorFlow/Keras

Core CS: OOP, DSA, Algorithms, Competitive Programming, System Design, File I/O, Modular Architecture, API Design basics

Cloud & DevOps: Microsoft Azure (AI-900, AZ-900), Git, GitHub, Linux CLI, VS Code, Basic CI/CD

CERTIFICATIONS

- **Microsoft Certified: Azure AI Fundamentals (AI-900)** — Microsoft (Issued: April 28, 2026 | Verification: 4vJU-XMpE)
- **Microsoft Certified: Azure Fundamentals (AZ-900)** — Microsoft (Issued: November 19, 2025 | Verification: LdKX-sF7K)

INTERPERSONAL SKILLS

Problem-Solving • Structured & First-Principles Thinking • Research Mindset • Independent Learning • Adaptability
